WHAT STUDENTS SAY:

You can tell that she is very passionate about the material from class, which made the class a lot more fun to learn as a student and observer. Prof. Coda also did a great job of making the material relevant to sitcoms and comedy of present day. What I liked best about this class was the fact that she was available at almost any time outside of class to go over questions regarding class concepts or projects. I feel like in some of my past classes I didn't have that availability to the professor like we did in this class.

(from students' evaluations)

What students say:

Very knowledgeable professor. I would definitely enjoy taking another course from her. She is very personable and willing to help each and every one of her students.

Dr. Coda does a great job of relating the material we learn to our everyday lives, showing why it is important to know. She is engaging and does a great job creating the exams and papers.

She really knows the topic. She's always ready to talk about the political background that we may have been unaware of during the initial reading of the material.

Great class, great topic.
