

MURALS in the community

I-D-A-I-J 9 murals. To show you've seen & compared all, give each a comparative award (largest, most realistic, best trompe l'oeil, most complex, most graffiti-like, most fun, most creative, most ethnic, smallest, most colorful, most serious, most easily painted, least preferred, etc.). #10: list wall space where no mural exists but it needs to, and what new image you'd appropriately have put there & in the style of which artist found in our text. Margin: identify the purpose (educational, aesthetic, expressive, decorative, etc.) of each mural? Are any of these not really murals (removeable, sculpture, framed paintings, etc.)? If so, tell us. Large flat art isn't necessarily a mural.
