

“Crossing Borders”

The feature-length documentary film “Crossing Borders” was selected and received honors at numerous festivals.

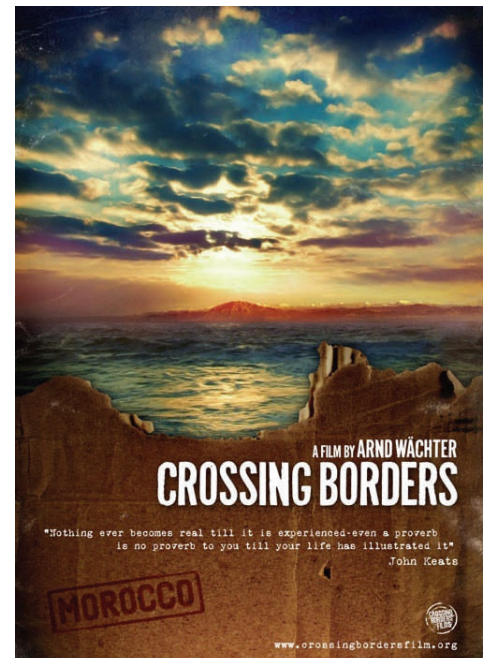

Crossing Borders aims for you....

- To **cross borders physically** through intercultural programs abroad.
- To **cross borders mentally** by understanding and confronting existing preconceptions.
- To **cross borders socially** by connecting students to people and issues in developing countries while creating concrete support for current development projects.

Crossing Borders seeks to bring intercultural awareness to campuses, to inspire cross-cultural empathy, and encourage action for educated peace in a post-9/11 world.
