

Scholarship of Engagement: Making the Case for Promotion

Friday, October 30, 2009
Discovery Learning Research Center

Attention: All Purdue University faculty members

Engagement is an important part of Purdue's mission. Engagement activities should be based in and contribute to a faculty member's scholarship and teaching. Faculty should build engagement "scholarship" -- publications, but also evidence of impact-- which are credible components of a promotion document.

The focus of this workshop is on assessment of engagement activities and the presentation of these activities in a curriculum vita.

8:00	Poster Session and Continental Breakfast
9:00	Welcome Dr. Vic Lechtenberg, Vice Provost for Engagement
