### **Monograph**

Owens, Timothy J. 2005. *From Adolescence to Adulthood in the Vietnam Era*. New York: Springer.

**Review:** *Contemporary Sociology: A Journal of Reviews*, 2006, 35, 1, 22-23.

"In short, Tim Owens has furthered our understanding of the impact of one of the most turbulent eras of recent U.S. history. He has done this with considerable theoretical and methodological sophistication—and that is quite an achievement. Sociologists of the life course, of the self, of the military, and of war and peace could all use this study as a starting point for expanding our understanding of how major social change affects the people caught up in them."

### **Edited Books**

Burke, Peter J, Timothy J. Owens, Richard Serpe, and Peggy A. Thoits, editors. 2003. *Advances in Identity Theory and Research*. New York: Kluwer Academic and Plenum Publishers. (Authorship is equal and in alphabetical order).

**Review:** *Contemporary Sociology: A Journal of Reviews*, 2005, 34, 2, 155.

"Although the volume focuses on extensions of identity theory, it is particularly appealing in that it does not merely celebrate the theory's significant past and likely future contributions to social psychology; it also offers challenges to and critiques of the theory. As such, *Advances in Identity Theory and Research* is likely to motivate new work among those who already categorize themselves as identity researchers, as well as scholars of the self who are less familiar with identity theory." ~Lisa Troyer

Owens, Timothy J., Sheldon Stryker, and Norman Goodman, editors. 2001. *Extending Self-Esteem Theory and Research: Sociological and Psychological Currents*. New York: Cambridge University Press.

**Review:** *Contemporary Sociology: A Journal of Reviews*, 2001, 32, 1, , 52-53.

"Many such collections are uneven in quality and contribute little to the advancement of their field. This one is an exception. There is much wheat and little chaff, and students of self-esteem will find stimulating insights and research findings in almost every chapter"

~John P. Hewitt

Stryker, Sheldon, Timothy J. Owens, and Robert W. White, editors. 2000. *Self, Identity, and Social Movements*. Minneapolis, MN: University of Minnesota Press.

**Review:** *Contemporary Sociology: A Journal of Reviews*, 2001, 30, 6, Nov, 588-589.

“This important volume fills a void by addressing critical pieces of the identity-movement relationship. . . . The goal of usefully bridging the social psychological-social movement gap is accomplished in this work.” ~Kimberly B. Dugan

Please note that she identified my own chapter for special comment: “Notably, Owens and Aronson (Chapter 9) attend to the linkages between two different types of self-esteem, individual and social, and social movement participation. They give credence to perception(s) of justice and fairness and examine the discrepancy between individual and social identities and its role in motivating activists. One of their basic arguments is that with an increase in self-esteem, there is also an increase in the likelihood of social movement participation.”

### *Advances in Life Course Research*

**Note:** The series recently became a victim of its own success. In 2008 Elsevier sold most of its social science annual volumes to Emerald Publishing but kept *ALCR* so it could be converted into a journal. I was asked to be the founding editor but declined.
