Letter from the Advisor

Dear CLA International Students,

I hope this letter finds you all excited about starting a new semester! I am proud to introduce you our pride and joy--CLAISC newsletter! CLAISC (short for CLA International Student Council) is a student organization, specifically created for CLA international students. The purpose of this organization is to provide international students with opportunities to cultivate leadership and to feel more connected with CLA. As an advisor, I cannot say enough of great things about the executive board (eboard) members of this council. In this newsletter, you will find a brief biography of each board member. The eboard members have done a lot of brainstorming and planning for our fall semester activities. I hope you can come to support and appreciate your fellow international students' efforts.

At Purdue, most of the international students do not lack good grades; instead, they lack experiences of getting involved in Student Organizations and volunteering in community services. These activities help students develop people skills and build connection, which are often the decisive factors on whether you can receive a scholarship or be admitted to a graduate school or secure a job offer! As an advisor working with international students, I earnestly hope you can join this amazing group of students! Furthermore, pay it forward by being an eboard member in the future to help other international students. New ideas and talents are always needed.

If you are interested in taking part in this council, you are strongly encouraged to come to the call-out meetings to listen to our officers discussing future plans. Please watch out for our emails and we look forward to meeting you in Fall 2017!

Boiler up,

Dr. Morgan
