Statistical Consulting

2020: Individual client: assisted in the development of measurement models for a project exploring racial/ethnic health disparities.

2016-17: RTI Health Solutions and Eli Lilly: prepared report and evaluated methods for addressing uncertainty in class assignment from pattern mixture models

2015-16: Individual client: evaluated statistical analysis for research on stress and health funded by the Robert Wood Johnson Foundation

2014-15: RTI Health Solutions and Eli Lilly: developed Stata program for conducting Confirmatory Tetrad Analysis

2014-15: UNAIDS: evaluated statistical analyses for a research project involving structural equation models used to predict AIDS related mortality

2013-14: Individual client: evaluated statistical analyses for a research project involving causal indicators and the use of Confirmatory Tetrad Analysis

2008-09: CSR Incorporated: served on a research advisory board for an evaluation of a juvenile justice program conducted by the University of Florida and funded by Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice

2006-09: Public/Private Ventures: conducted statistical analyses related to evaluations of programs working with ex-offenders and early education programs targeting the children of immigrants

2006: Benefits Data Trust: developed statistical models to predict response rates for a program to enroll low-income elderly people for health benefits
