## BOOKS IN PROGRESS

*Wealth and Power in World History.* Co-authored with Patrick Hearden. Under contract with Pearson Longman Press. This is a world history textbook focusing on the formation and distribution of wealth and power, both within and between societies and polities, in the history of humanity. My chronological responsibility will be from the beginning of the Common Era to 1750. Expected completion, December 2013.

*Who Was William Hickey? Autobiography, Self and Identity in Eighteenth-Century Britain.* Based on the extraordinary memoirs of William Hickey, this is an analysis of a prodigal son,

sexual adventurer, English gentleman, nabob and lawyer at the Bar of India during one of the most significant periods of Great Britain's imperial expansion. His life and memoirs allow me to explore the multifaceted nature of identity and self formation through the writings of an uncommonly observant and passionately indulgent man. Expected completion, 2015.
