

How to connect to network drive from off campus

Operating System: *Windows*

*Note: You must connect to the Purdue VPN first when off campus. This will allow you to connect to your network drives. If the Cisco client is already installed skip to step 4.

If you are on a personal computer and need to connect to the VPN with AnyConnect, open a web browser and navigate to <https://webvpn.purdue.edu>

Login

Please enter your username and password.

Manual Installation

Web-based installation was unsuccessful. If you wish to install the Cisco AnyConnect Secure Mobility Client, you may download an installer package.

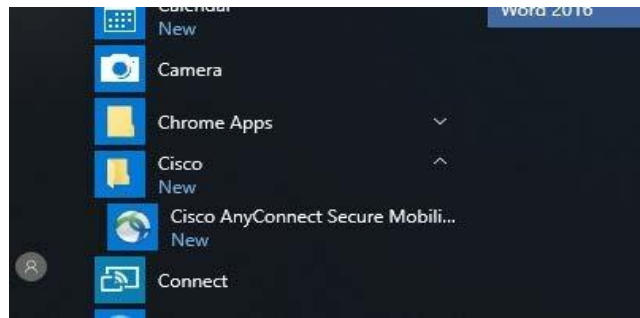

Install module(s) below in the listed sequence. Platforms supported: Windows 7 SP1 or newer

[AnyConnect VPN](#)

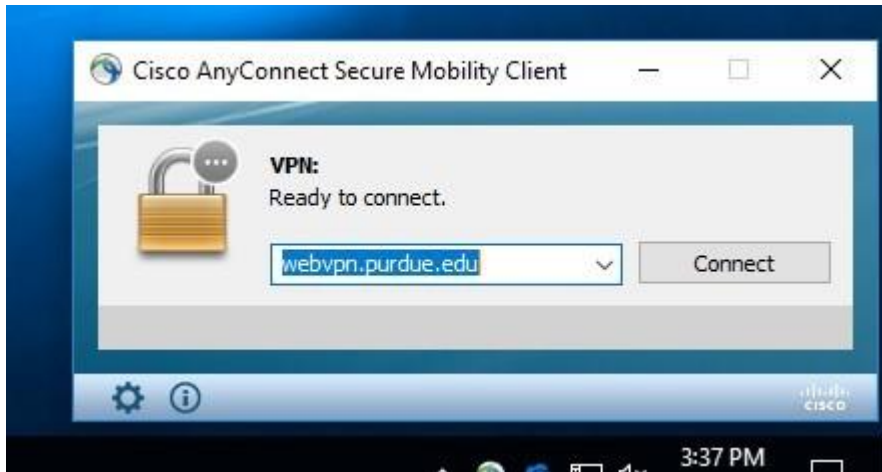

Alternatively, [retry](#) the automatic installation.

Help Download

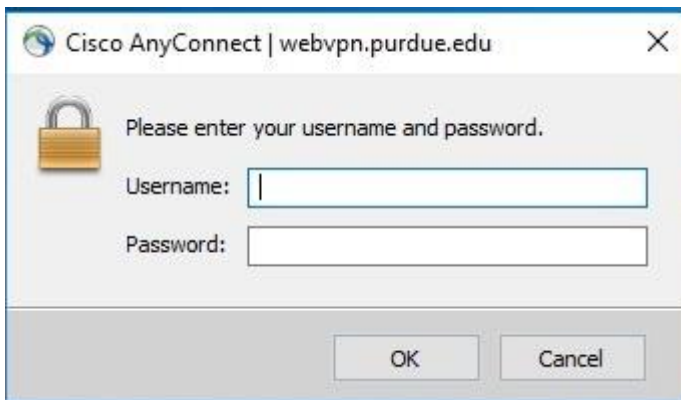

4. Once installed, launch the Cisco AnyConnect Secure Mobility Client by opening your start menu, navigate to the Cisco folder, and then click on AnyConnect. Or search for Cisco AnyConnect.

5. In the box, type `webvpn.purdue.edu` and click Connect

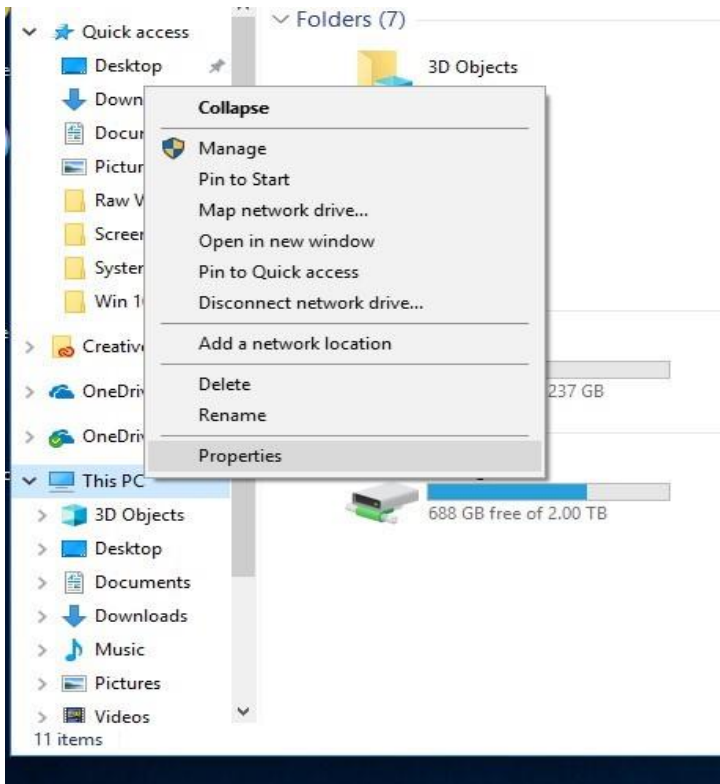

6. Enter your Purdue Career account username and **BoilerKey** passphrase.

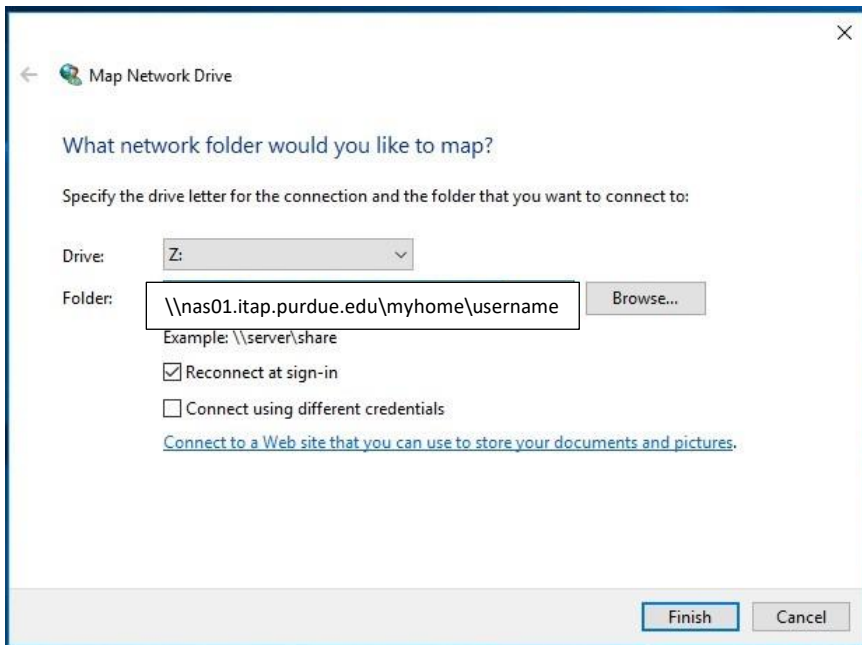

7. Click on OK and approve the BoilerKey notification if needed.
8. To map the drive, open File Explorer (the yellow envelope icon at the bottom of your screen).

9. Right click on “This PC” and choose Map Network Drive.

10. Choose a letter that has not been used. Enter the location of the network drive. The Purdue myhome career account is shown in the example below.

11. If you are at home on your personal computer, check the box “Connect using different credentials.” You do not have to follow this step if you are using a Purdue computer.

- a. After you click finish, you will be prompted to enter your career account info if you checked the Connect using...box. Enter your username in the format boilerad\username.
