

Adobe Creative Cloud Desktop App

Installing the Adobe Creative Cloud application on your Windows computer will allow you to install all of Adobe's products including Adobe Acrobat DC used by many for PDF documents.

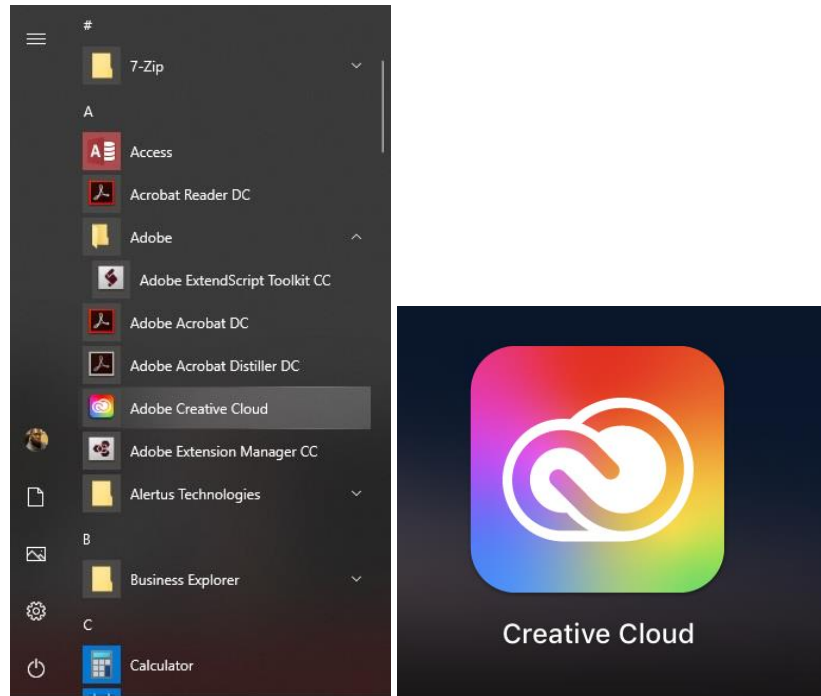

1. Find Software Center by clicking the Start Button and typing 'Software Center' into the search box:

2. Click on Software Center and you will be met with programs and printers. Use the search in the upper-right to find Adobe Creative Cloud
 - a. Click on this to install Adobe Creative Cloud and wait for the application to appear on your desktop or in your Start Menu:

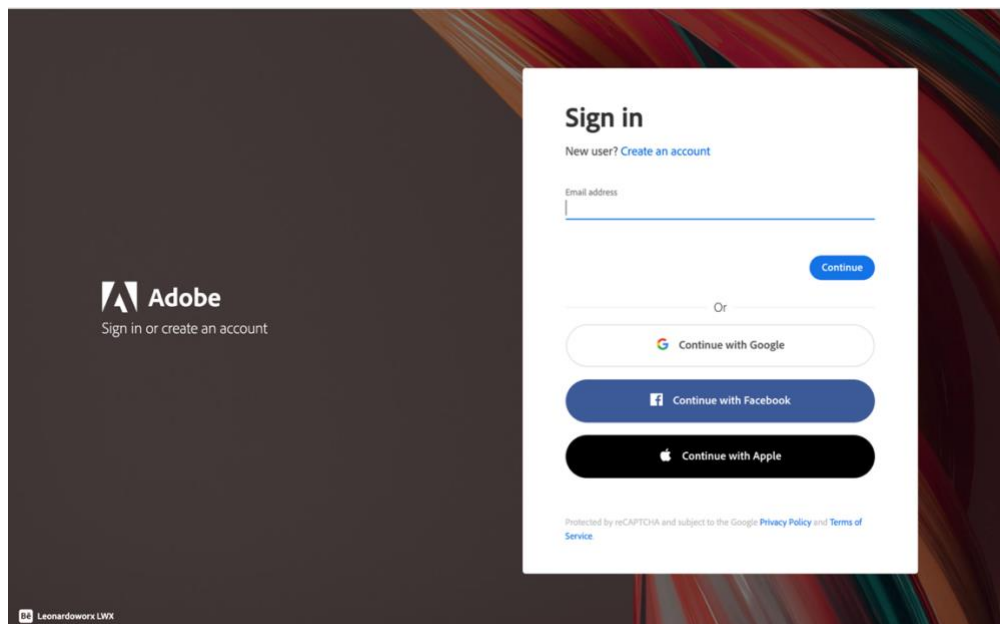

3. Adobe Creative Cloud in the Start menu

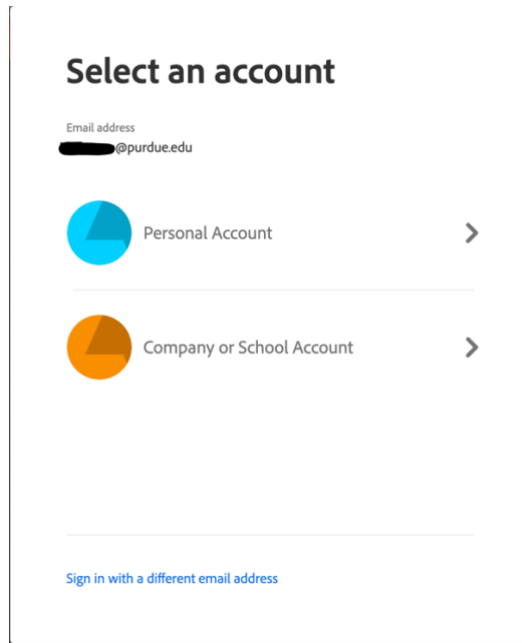

4. After opening Creative Cloud, use your <username>@purdue.edu email address and click Continue.

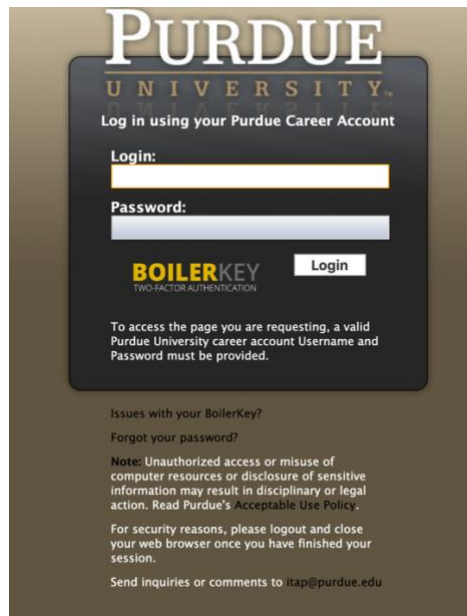

Sign in landing page:

5. Select Company or School on the next screen.

6. Purdue's CAS login page will be presented
- a. Enter your Purdue alias and BoilerKey passphrase
 - b. Click Login

7. Finally, you will be met with the Adobe Creative Cloud Application where you can download your favorite programs to use on your computer:
