AD 61600 Drones, Dirt, Sleep & White Rhinos

cross-listed with AMST 65000
Fall 2016, T 7:00pm - 9:50pm, FPRD 204
Prof. Shannon McMullen (smcmullen@purdue.edu)

What can we learn -- analytically and creatively -- about the relationship between technology, nature and society by looking at four cases defined by very different temporalities? This interdisciplinary studio seminar will engage readings, material and visual culture related to these four cases. Participants will use their skills to work collaboratively or individually on projects that may take the form of research papers, artworks or design objects.
